

MULTIDESK 30 med

MULTIDESK 50 med

instrumentation table product description

With the height-adjustable instrumentation table (the so-called silent sister), you can achieve the maximum flexibility and ergonomics directly at the operating table. The two load capacity classes of 30 kg and 50 kg are ideally suited to your needs. As in the entire MULTI DESK range, longevity is guaranteed by high quality materials and maintenance-free hydraulics.

Let yourself be impressed. We will convince you.

technical data:

	MULTI DESK 30 med	MULTI DESK 50 med
Size of the table top:	750 x 600 mm	
Work height:	870 – 1270 mm	900 – 1330 mm
Hub:	400 mm	400 mm
Maximum load:	30 kg	50 kg
Tare weight:	36 kg	40 kg
Equipment:	- 3 high - quality castors - Height adjustment hydraulic, infinitely variable - High- quality Cr- Ni materials (1.4301)	

Overview of your additional values:

Stable even under maximum load
– **Your additional safety value**

Permanently corrosion and acid resistant
– **Your additional longevity value**

Thought out hygienic design
– **Your additional disinfection value**

Maximum mobility thanks to castors
– **Your additional flexibility value**

Without battery, without cable
– **Your availability value**

Infinitely variable concerning the height
– **Your additional ergonomics value**
