

MULTIDESK 40 med KT

catheter table product description

The market has had to wait a long time and now it's finally here: the height-adjustable catheter table from the MULTI DESK range. Catheters, instruments, devices and other over-length surgical equipment does now find its place close at hand as well as safely. The catheter table impresses with its flexibility, stability and longevity and so does the entire MULTI DESK range.

We are already impressed - you will be too.
